Under Rule 34 of the Grant-in-Aid Code for Indian Schools the amount of grant earned by the Schools is calculated as follows:-

(1) Half the excess of the approved recurring expenditure over the fee income, plus

(2) Loss in fee income on account of award of fee concessions, plus

(3) Half the expenditure on account of scholarships and fee remissions limited to 10% of fee income.

To earn the grant each school has therefore to deduct the fees collected from approved expenditure during the year for which the grant is applied for. Hitherto, with reference to (1) above the actual fees collected were deducted from the approved expenditure and with reference to (2) and (3) above loss in fee income was claimed. According to the interpretation now proposed to be adopted the calculation should, in all cases, be made on the standard rates of fees fixed in Resident's Prodgs. No.7203, dated the 6th Octr. 1931 being claimed the loss in fee income with reference to (2) and (3).

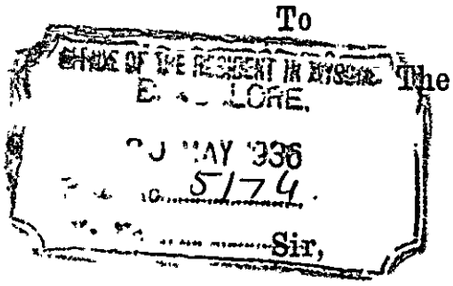
To



The Secretary to the Hon'ble the Resident in Mysore,

Bangalore

Sir,

I have the honour to state that the Accountant-General, Madras, has drawn my attention to the fact that the interpretation which has hitherto been adopted by this office of the expression "tuition fees reckoned at standard rates", occurring in Rule 34(i) of the Grant-in-Aid Code, is wrong and at variance with the interpretation given of it by the Director of Public Instruction, Madras. His view is that by "standrad rate" is meant the full rate of fee; this seems obviously to have been the sense in which the expression is used in the rule in question, inasmuch as a separate paragraph of it is devoted to fees levied at concession rates.

In anticipation of your approval and so that the new interpretation may be adopted in respect to the financial statements due from the schools this year, I have issued a circular (copy enclosed) on the lines of the instructions given by the Director of Public Instruction, Madras, and I request the favour of approval of my action.

I have the honour to be,
Sir,
Your most obedient servant,

M.S.H. Thompson 19/5

Inspector of Schools,
Coorg & Bangalore.

No. 1272/B/5/36 Office of the Inspector of Schools,
Coorg & Bangalore,
Bengaloro, Dated 1936

Circular.

The expression "income from tuition fees reckoned at standard rates", occurring in Rule 34(1) of the Grant-in-Aid Code for Indian Schools, should in future be interpreted to mean "the amount of fees calculated at standard rates in respect of all pupils, whether they belong to non-backward, backward, or depressed classes"

Grant will in future be calculated on the basis of this interpretation of the expression "standard rates".

The standard rates of fees to be levied in the several classes of a Secondary School in the Civil and Military Station of Bangalore have been fixed by the Hon'ble the President in Mysore, and were communicated to Corrospondents in this office No. 3800/4-34, dated 13-10-1934.
